Personal

I am a driven, self-motivated, former start-up business owner and award-winning designer that strives to use quality and playful creativity in the work that I do.

In 2022 I decided to retrain and took a 1 year course in UI/UX design. UI/UX taps into my interest in business and design and is great for my career requirements

I am a dad to a 4-year-old boy and a 1-year-old girl so my life is very child and play focused.

Married to a Danish woman whom I met when working for LEGO in 2009. In 2021 we bought a house in Vejle.

Recent Education

UI/UX Career Foundry Course 2022-2023

Over the past year I have been studying for a new career in UI/UX design by taking the Career Foundry UI/UX course. The course has expanded and refreshed my user centric design and research skills in:

User Flows

User Testing

Wireframing

Preference Testing

Prototyping

UX/UI

Competitor Analysis

User Profiling

Employment

Adam Christopher Design Ltd 2011-2021

From 2011 to 2021 I created and ran my own business in high end garden planters, which can be seen on my website adamchristopherdesign.co.uk. During this time, I developed my skill set in association with a design and manufacture business. Some of those skills were:

Project Management
